## Education

### Northeastern University

Bachelor of Computer Science, Minor in Business Administration

GPA: 3.87 | Dean's List | John Martinson Honors Program

Boston, MA

Expected: June 2028

## Skills

**Languages:** Java, Python, Dr. Racket, HTML/CSS, C, Streamlit, Flask

**Tools & IDEs:** Git/GitHub, VSCode, IntelliJ IDEA, Eclipse, Dr. Racket, PyCharm, Replit, Linux

**Spoken Languages:** Mandarin Chinese (Fluent), English (Fluent), Spanish (Beginner)

## Work Experience

### Break Through Tech

May 2026—Present

Machine Learning Fellow

Boston, MA

- Selected from a pool of 4,300+ applicants for a 12-month AI fellowship focused on machine learning, technical project development, and industry mentorship by completing hands-on AI coursework and industry-sponsored projects

### John Hancock

January 2026—May 2026

Actuarial Intern (Co-op), Liability Modeling Team

Boston, MA

- Building a Python + SQL tool to streamline CSM calculations to analyze Experience Analysis variables on profits
- Design, validate and maintain data-driven models to forecast insurance policy cash flows, determining financial risk

### Khoury College of Computer Science; Northeastern University

November 2025—Present

Research Assistant for Foundations of Data Science, Dr. Chieh Wu

Boston, MA

- Created educational videos explaining complex linear algebra topics, increasing accessibility for 100+ students
- Developing a software app. that allows for ML-generated course questions & answers (Streamlit, Python, SQL)

### MathWorks

January 2025—Present

MATLAB Student Ambassador

Boston, MA

- Organized 3+ technical and career-building events with 30-60 attendees, showcasing various MATLAB applications
- Increased MATLAB campus community by 50+ members through promotion events and collaborations with clubs

### D'Amore-McKim School of Business; Northeastern University

July 2025—January 2026

Research Assistant, Dr. Fernando Suarez

Boston, MA

- Developed Python scripts to automate cleaning and analysis of 50,000+ rows of market data used for market research
- Utilized collected data to creatively generate descriptive statistics tables and data visualizations to engage and inform

### Khoury College of Computer Science; Northeastern University

May 2025—July 2025

Teaching Assistant for Fundamentals of Computer Science II, Dr. Leena Razzaq

Boston, MA

- Led weekly lab for 40+ students, simplifying class-based program design; 90% increased comprehension in semester
- Delivered feedback on 100+ student projects, reducing code errors and strengthening students' debugging skills

## Projects

### Outfit Builder Web App, NU Women in Tech Team Project, Software Lead

February 2026

- Built a Streamlit + Flask full-stack app for uploading clothing photos, storing in MongoDB/SQL, and assembling fits
- Delivered key features while working in a structured GitHub ticket system with branches, PRs, and code reviews

### Calendar

June 2025

- Built a dual interface (GUI + CLI) calendar app in Java with MVC design, enabling scheduling and recurring events
- Implemented advanced OOP principles—command patterns, inheritance, adapters—in Java Swing

### Anti-Polluter Scooter (Word Game), HackBeanPot Hackathon, Team Lead

February 2025

- Led a 3-person team to build a leveled typing game promoting environmental awareness via interactive gameplay
